Deer are jumping the fence and eating crops, especially peas. New gates were paid for from a GOCO grant for park improvements which need to be installed.

Granby: The gardens are growing great. All the beds are full and need to be harvested. They even have a few ears of corn! There has been a lot of volunteer activity.

Fraser: The building project continues. There has been an increase in flea beetles this year. The gardens have been producing and donations made to Mountain Family Center.
